**What is Fair Trade?**

*Fair Trade* is a trading partnership, based on dialogue, transparency and respect, that seeks greater equity in international trade. It contributes to sustainable development by offering better trading conditions to and securing the rights of marginalised producers and workers. *Fair Trade* organisations (backed by consumers) are engaged actively in supporting producers, awareness raising and in campaigning for changes in the rules and practice of conventional international trade. *Fair Trade* is about people who believe in a future full of justice.
